

CALL FOR EXHIBITORS

2019 MACUL Conference
March 20-22, 2019
Cobo Center | Detroit, Michigan

General Information

Formed in 1975, MACUL – the Michigan Association for Computer Users in Learning – is dedicated to bringing educators together to share knowledge and address concerns about the uses of computers and technology in education. MACUL’s annual conference draws thousands of educators from throughout Michigan, neighboring states, and Canada. Members learn about innovative, technology-related programs and have access to an extensive exhibit area highlighting hardware, software, computer-related materials, and other educational technology.

Recognized as one of the most comprehensive conferences in the country on the uses of technology in education, MACUL gives educators the opportunity to see and experience the latest in state-of-the-art technology. Within this environment, the MACUL exposition provides an extraordinary marketplace for increasing sales with face-to-face, hands-on interactions with prospective customers.

With its targeted audience, MACUL can be a potent, cost-effective marketing tool for technology-related companies.

Exhibitors can:

- demonstrate state-of-the-art products to an informed, receptive audience.
- meet a select, qualified audience that wants to learn about new products and services.
- showcase new products and services.
- reach people not usually accessible to sales representatives.
- create immediate impact with high-energy displays.
- communicate effectively with one-on-one contact.
- identify new applications and markets through immediate feedback.
- discover new buying interests.

MACUL Conference attendees represent \$90 million in buying power!
